

Shake the world

C **G#M**
I cannot guess at the full meaning
F **C**
I just simply succumbed
C **G#M**
To the first dim beginnings
F **C**
Of understanding Your radiant love
G#M FM C
L-o-v-e

I was once something without
Now I've got some One within
Your voice was soft with relentless whispers
now I am Yours lets begin

G#M F C
To shake the world to shake the world
G#M F C
To shake the world to shake the world

O deep beyond the furthest reaches
Jesus Your mercy extends
Unsearchable are the riches
Of this love that is definite
L-o-v-e

Burst through the haze that dims my perception
Blind me with Your glorious light
Until I rest ruined by this vision
Renewed by Your presence to fight
