

SWEET PEACE

C Em Am G C
Oh Jesus, meet me in this dark unknown
Em Am G
I'm falling apart don't leave me alone
F G Am G
Lord I believe, help my unbelief

Oh Jesus, I'm so afraid of what I can't see
Be my peace, come and strengthen me
To know your love, yes to know your love for me

(CHORUS - C Em Am G)

***Oh draw me into Your grace
Turn me out, set me ablaze
That all may see Your face in me
And when I'm finally released
From this life you have given me
May I leave behind your sweet, sweet peace***

Oh Jesus, give me courage to confront this day
To see these intersections of grace
Spirit come over me and fill this place

(CHORUS)

Your victory is all I need, your victory is all I need, your victory is all I need to be

Oh Jesus, give me rest in my unrest
I love you Lord, but I confess
Some times I may sink
But You were there to rescue me
