

Teach me to pray

G D Em
Don't know if I have ever gone this Far
C Am
Unfamiliar territory with you in the dark
G D Em
Can't breath need Your breath to move
C walkdown G
Jesus pull me through

C Am
Tumble through days on end
C D
Each day I must begin

G D Em
It's in sweet submission that gives me
C walkdown G
The strength to be real
G D Em
The cross is my deepest conviction
C walkdown G
Only Your wounds can Heal

Jesus won't You please teach me to pray
Cause I just want to talk with You
Forgive me today cause I've spent so much time
Pretending to know You

Tumble through days on end
Each day I must begin

Chorus

C D
You've stripped me down exposed my heart
G walkdown Em
With Your love so severe
C D
And You asked me to love You
C D
Jesus hold me near
