

The Valley May Be Dark

E A E
Adam's shadow it was casted
E B E
How it covered all the land
E A E
Out from Eden it descended
E B E
Now to land on our guilty hands

The laws of Moses they were roaring
in the face of sinful man
The sacrifices they would offer
could never meet its great demands

E
And that valley may be dark (may be dark)
 A E
Over all the earth extended
E
but the love (but the love) of God is brighter (of God is brighter)
 B B7
and its path cannot be bended
 E
Yes it hits (yes it hits), the sinners heart (sinners heart)
 A E
turns their sorrows into the laughter
 E B
and with joy (and with joy), they will dance (they will dance)
 A E
up the mount of the redeemed

prophets came and prophets went
and their message was the same
a messiah would soon be coming
for the wandering souls to save

Chorus

one last prophet came from the dessert
to announce the lamb of God
John would baptize with streams from Jordan

Christ would baptize with streams of Life

Chorus
